Emergency

- ◆ General emergency: call campus security at 6488 2222 (or 1800 655 222)
- ◆ In super emergency: call emergency at 000
- ◆ In all buildings, we have an emergency procedure booklet that outlines how to react when such event happens.
 - ◆ Please take a time and read it.
- ◆ For more details, please have a read through our emergency procedure for various potential incidents
 - ◆ <https://www.uwa.edu.au/about/campus-services/safety/hazards-incidents-and-emergencies/emergency-procedures>

Emergency procedures

For life threatening emergencies dial 000 (if phoning from UWA dial 0 for outside line if using office phone; if using TEAMS no need to dial 0 first). Also dial UWA Security on [\(+61 8\) 6488 2222](tel:+61864882222).

Code RED - Fire/smoke	▼
Code PURPLE - Bomb threat	▼
Code BLUE - Medical emergency	▼
Code BLACK - Personal threat	▼
Code YELLOW - Internal (UWA) emergency	▼
Code BROWN - External emergency	▼
Code ORANGE - Evacuation	▼

Location

- ◆ Lecture

- ◆ Venue: Woolnough Lecture Theatre (GGGL 107)
- ◆ Time: Mondays 12pm – 2pm

- ◆ Labs

- ◆ Lab 1: EZONE NORTH 209 @ Tuesdays 2pm – 4pm
- ◆ Lab 2: EZONE NORTH 209 @ Wednesdays 10am – 12pm
- ◆ Lab 2: EZONE NORTH 209 @ Wednesdays 2pm – 4pm

- ◆ Consultation

- ◆ Office at Computer Science building room 1.10 – email to book a time

Changes will be announced (if any)

Let's get the conversation started

Try @mentioning a student or teacher to begin sharing ideas.

Course overview: Term 1

Labs start first week!

Week	Lecture	Lab	Assessments
1	Intro + Defence overview	Lab 0: Linux and Networking	
2	Cryptography*	Lab 1: Hashing and Blockchain	
3	Privacy	Lab 2: Privacy	
4	Access Control	Lab 3: Access Control	
5	Security Management		Lab Quiz 1
6	Security Tools	Lab 4: Protocols and Tools	
7	IDS	Lab 5: IDS	
8	Threat Intelligence		Project out

*Cryptography lecture will be available online due to Labour Day public holiday on Monday

Course overview: Term 2

Week	Lecture	Lab	Assessments
Break			
9	Security Modelling and Analysis	Lab 6: Risk Analysis	
10	Proactive Cybersecurity		Lab Quiz 2
11	AI and Security		Project demo
12	Special Topic		Portfolio due

Assessments

Assessment Item	When	Covers	Worth (total)
Lab Quizzes	Weeks 5, 10	Topics up to the week	40% (20% each)
Project	Weeks 2-11	Various	40%
Portfolio	Throughout Semester	Various	20%

Please note, all dates are tentative and subject to change!

How does the lab quiz work?

- ◇ During your scheduled lab time, you will be supervised by a lab facilitator to complete a timed lab quiz (~60 mins but can vary).
- ◇ You cannot receive mark if your attendance is not confirmed by the lab facilitator.
 - ◇ i.e., you must be supervised/invigilated by the lab facilitator to receive marks.
 - ◇ Attendance is required for all F2F students (unless a reasonable excuse is provided).

How does the lab quiz work?

- ◇ We will be using a peer-marking system, where you will be formed into a group of 4 (or thereabout).
- ◇ For MCQ and written questions, marking keys will be provided.
- ◇ For Demo, you will be given 10~15 min slots to complete the demo.
- ◇ Marking keys will be provided for peer markers to use and submit the report.
- ◇ The peer markers will also provide feedback to the demonstrator including the mark range.
- ◇ Facilitators will be available for any moderations and review of the peer marking process.
- ◇ All submitted peer marks will be reviewed and moderated, and finalised marks will be uploaded to csmarks.
 - ◇ <https://secure.csse.uwa.edu.au/run/chapter0>

Project

- ◆ Details to be confirmed but this year I am thinking:
 - ◆ You will be put in a group
 - ◆ Part 1 (10%) : Conduct literature review of existing security solutions in community
 - ◆ Part 2 (40%) : Evaluate and discuss the security solutions
 - ◆ Part 3 (40%) : Implement and enhance security solutions
 - ◆ Part 4 (10%) : Assess the new implementation and feedback
 - ◆ You will submit accompanying reports (group and individual) as well as doing Demo as required.
 - ◆ But TBC.

Portfolio

- ◇ You are given a list of tasks to complete over the semester.
- ◇ Keep track of your activities and completed tasks to create a portfolio.
- ◇ Submit the portfolio at the end of the semester.

Prerequisites and recommendations

- Prerequisites: CITS1003 and CITS1401 (or their equivalents)
- You will need to be familiar with Linux
- You will also need to study a bit about basic computer networking
 - Lab 0 will cover Linux and basic networking so don't panic.
- You may also use other programming languages other than Python as necessary.
 - But we'll keep this to minimal.
- You should also be familiar with basic discrete mathematics and number theory.

Please note

- Lectures provide **theoretical** and **conceptual** understandings of the topics presented
 - But we will also do some practicals in the lectures as applicable
 - So, you should bring your laptop if you want to try them in class as well
- Labs and project provide **practical skills** of the topics presented
- The contents in Lectures, labs and project will be related, but they are all **INDEPENDENT** learning materials
 - i.e., you will be learning new things in each lecture, lab and project.
